from the city, and that votes are cast in their names at every election;
They used their influence and power to prevent us from making a copy of these registration books, thereby greatly impeding our efforts to prevent fraudulent voting;
They rejected our proposition for the holding of a day primary for councilmen, and have arranged for a night primary, well knowing that such an election offers every opportunity for the exclusion of legitimate voters and for the admission of tramps and repeaters;

getting that they have actually ignored these provisions, within the past ten days, in having the delegates to the State Convention chosen by Ward meetings; The same law which they rely upon to support them in calling a night primary for councilmen requires that delegates to State conventions shall be chosen by primary election. They ignore this law when it suits their purpose so to do, but they are not willing to exercise the same right and privilege when the question is one of a fair and free election;

With the police force of the City organized and controlled as at present, a fair primary election is impossible;

They have recently arrested and taken from the polls on the false charge of assault, two gentlemen who were lawfulfy engaged in preventing an imported gang of tramps from voting

an imported gang of tramps from voting.

If such things as these have been perpetrated in an all-day election, and have gone unpunished, what is there in the way of fraud, intimidation and violence that would not be attempted and could not beaccomplished in an election held during five hours of the night?

If you believe that an all-day primary is conducive to fairness, and that a night primary is conducive to fraud, you cannot draw but one conclusion from the refusal of the City Executive Committee to give its consent to the day primary. It was their right and privilege to order either one or the other, and they have ordered the night primary, and it now rests with you to say which of the two methods you prefer to hold your elections under. As a permanent political organization of this city, we decline to have anything to do with such a primary, for "surely the net is spread in vain in the sight of any bird."

Their Remaining Goods Will Be Raffled-The Carnival Has Been A Great Success

The City League for Good Government, in presenting the names of its candidates for the Councils, as shown it in another column, first of all begs to assure you that not one of them is pledged to the interest of any man or of any measure, and that they will serve you as law-makers without fear and without favor,untrammelled by pledges, unpurchasable by promises, and seeking only to promote the best interests of our City

The names of these gentlemen will not be before you in the coming primary election, and we therefore ask you to consider them carefully, to compare them, man by man, with the probable winners in that primary, and to decide now upon your preference between cur candidates and these others. If, after this review and comparison, it shall be your judgment that the interests of the City will be best served by the selection of our candidates, we ask you to take no part in the primary election, but to reserve your vote for the general election.

A proper regard for the opinions of our fellow citizens requires that we should declare to them the causes which have impelled us to seek the election of our candidates without first submitting their claims to the nominating primary election;

We hold that the right of the citizen to declare, by his ballot, who shall make and who shall administer the laws to which his obedience is required, is the right preservative of all other rights, and that the infraction thereof, if left unrabutates.

laws to which his obedience is required, is the right preservative of all other rights, and that the infraction thereof, if left unrebuked, will eventually lead to anarchy or despotism:

We hold that, since there can be no just form of government except that which derives its powers from the consent of the governed, it is a self-evident truth that none but those who are bona fide residents of the city should be permitted to have a voice in the selection of its magistrates;

We hold that whenever the power of any political organization, or of any member thereof, is exercised for the destruction of these principles, it becomes the privilege and the duty of the people to resent the usurpation, and to insist upon their own right to decide who shall be their officers and law-makers;
